

ScentStream

HVAC WIDE AREA DIFFUSION SYSTEM

The ScentAir ScentStream is ideal for creating ambient scent environments in large business settings. The advanced diffusion technology releases fragrance into existing heating and air conditioning ventilation systems without sprays, aerosols or heated oils. Adjustable duration and intensity settings make it easy to customise the scent output for any environment.

Product Features:

- Provides coverage for areas with an air volume of up to 8,500 cubic metres
- Modular components allow for flexible installation
- Twenty-four hour clock with variable cycle times
- Adjustable scent intensity settings
- Low maintenance with few moving parts
- Simple and clean replacement of scent oil
- Thousands of quality scents to choose from

ScentStream SXD-1010 Technical Specifications

Dimensions	21.5 cm L x 16 cm W x 18.5 cm H
Weight	2.7 kg
Coverage	Up to 8,500 cubic metres
Variable Output Control	Up to 850 cubic metre/minute air handler
Manual Cycle Time	2–10 minute ON and OFF cycles
Multi-nozzle Compatability	Up to 2 nozzles per system
Power Consumption	2.5 amps
Power Requirements	110-240V AC grounded plug
